WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Generally westerly flow across northwest California will help maintain a quiet weather pattern through the weekend. A subtle drop in temperatures will be observed across the interior while plenty of low clouds and fog hug the coast.

Medford Weather:

Not as hot today as yesterday as the thermal trough slides east. Onshore gradients will result in fairly typical afternoon and evening west winds, but when combined with continued very low humidities, we will be near critical fire weather conditions again this afternoon. Still, potential red flag conditions are not widespread enough to warrant a warning.

Reno Weather:

Dry conditions with above normal temperatures will continue through this weekend. Afternoon zephyr breezes are expected today and Friday, with lighter winds on Saturday. Haze from the wildfires in California may drift across for the next few days. A cooling trend with increased winds is possible next week.

San Francisco Weather:

Aside from patchy coastal drizzle during the early morning hours through the rest of the week, dry weather conditions along with temperatures near seasonal averages will persist through the forecast period.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

Dry weather with near normal temperatures can be expected through early next week.

Hanford Weather:

Dry weather can be expected in Central California for the next several days. Temperatures will remain above normal today then lower to near normal by the end of the week as high pressure weakens. Upper ridge will build back over the later part of the weekend and into early next week with temps remaining near normal.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

Onshore flow and persistent marine layer will keep temperatures slightly below to near normal through late week. High pressure will build early next week for a warming trend and fair skies except overnight clouds along the coast.

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

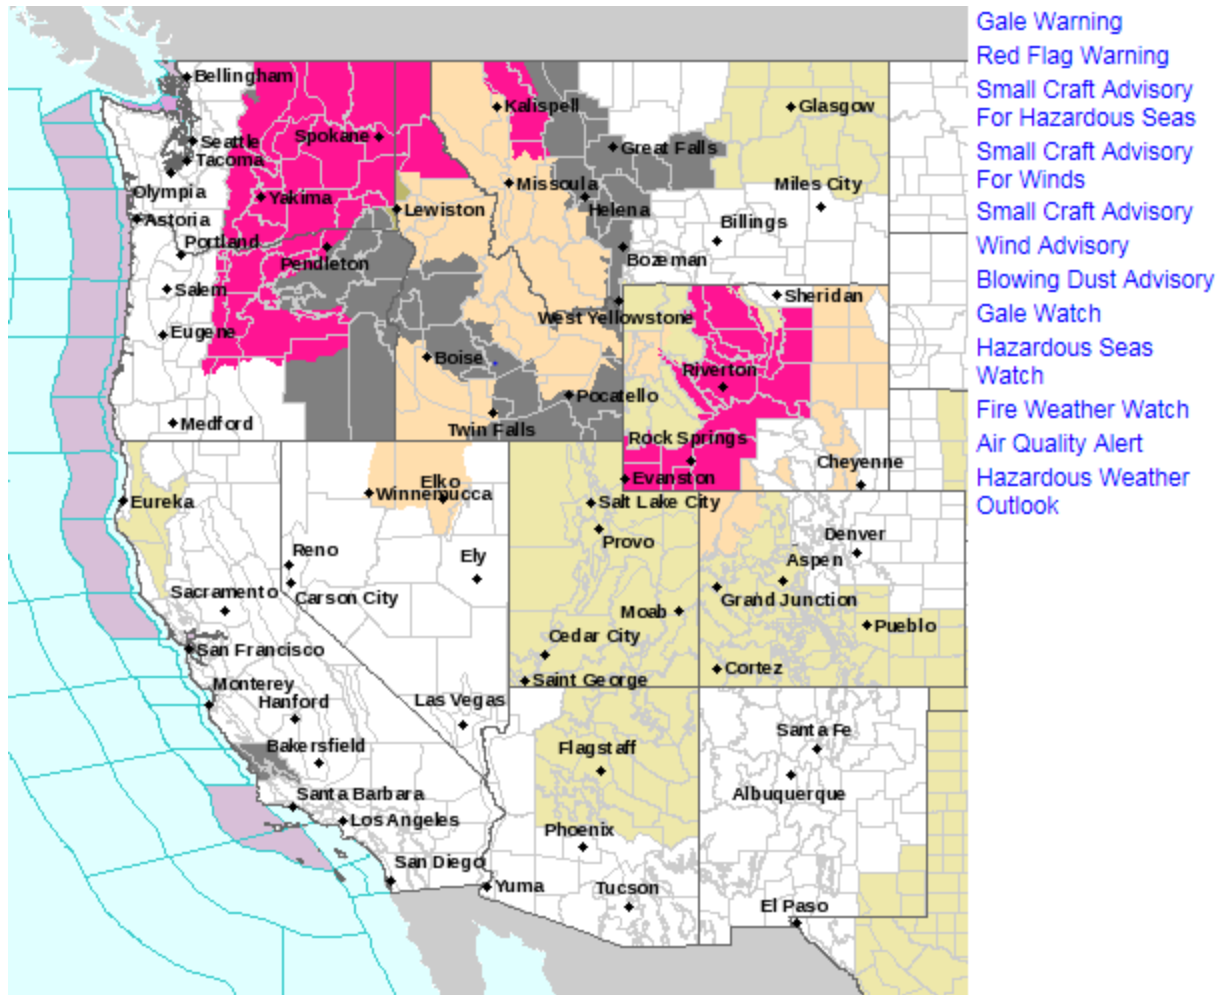

Fair and seasonal summer weather will continue across southern California for the rest of the week with a moderately deep marine layer producing coastal clouds during the nights and mornings. Higher pressure aloft will develop this weekend for a modest warming trend next week. A brief increase of monsoon moisture could lead to a few mountain and desert thunderstorms early next week.

Southeast California Weather:

Upcoming monsoon moisture brings increasing chances of showers and thunderstorms with the best chance of widespread rainfall early next week. By the middle of next week, a return to more westerly flow aloft begins to reduce thunderstorm chances.

Rough, Vegetation Fire, Fresno County

Location: 5 miles north of Hume Lake and 2.5 miles southwest of Spanish Mountain

Jurisdiction: SRA

Start Time: 7/31/15 at 1933 hours

Per Cal OES, CAL FIRE, and ICS-209 as of 08/20/15 at 0607 hours:

- 32,414 Acres, 3% Contained

Evacuations/Shelters:

- Mandatory Evacuation Areas:
 - The Hume Lake Christian Conference was evacuated 08/18/15. Per the Cal OES Law Duty Officer (LDO) evacuation was accomplished in less than 2 ½ hours due in significant part to prior planning between Fresno Sheriff and the Camp Staff. The group of 750 to 1000 people were evacuated to a sister Church in Fresno for sheltering.
 - There are 250 mandatory evacuations in the National Park Campgrounds in the immediate area of Hume Lake Christian Camp.
 - There has been an evacuation of 32 private residences, believed to be all vacation homes in the Big Meadow and Heart Meadow Neighborhood.
 - Approximately 1,500 campers in several Kings Canyon National Park Campgrounds located along 10 Mile Rd have been placed under mandatory evacuation.
 - The American Red Cross has been called to open an assistance Center at Grant Grove in Fresno County for individuals being evacuated from the impacted wilderness areas of the Rough Fire. If demand gets too great the ARC will create a shelter situation.
- Structures Threatened: 450 mixed commercial/residential
- The California Highway Patrol has also moved the road closure, which had been located at the intersection of Highway 180 and Hume Lake Road. The new road closure now sits further south on Highway 180 at Grant Grove Tree (approximately 2 miles north of the Hwy. 180 and Hwy. 198 interchange). The roadway will remain closed until authorities determine it is safe to reopen. The Sheriff's Office wants to make the public aware that no one will be allowed to enter the Hume Lake area; people will only be allowed to exit.
- Per CUEA, PG&E critical facilities and distribution assets are no longer in a high risk category for threats to power serving Central California. CAISO has reviewed PG&E facility locations that may be impacted by the fire and none of the locations would compromise the grid in any capacity. There would be no brownouts if these sites were impacted.
- Missions:
 - 2015-IREOC-15460 Two air monitors to Mariposa OA
 - 2015-IREOC-15468 One air monitor to Madera OA

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC every Monday at 1100 hours.

FEATURED TRAINING at Cal OES Mather HQ

Advanced Disaster Recovery Strategies for Local Communities - September 3, 2015

The goals of the course are to prepare participants to:

- Engage the target audience with the disaster recovery process
- Discuss federal, state, and local regulations, guidelines and tools pertaining to disaster recovery
- Review contemporary research and literature concerning disaster recovery at the local level
- Examine a wide range of hazards and their impacts on recovery

Climate Adaptation Strategies for Emergency Services - September 4, 2015

The purpose of this eight hour training course is to prepare the community and the emergency services sector for the climate adaptations and systems vulnerabilities that might occur from hazard impacts. The course is developed to enhance awareness to future climate hazards and impacts that the emergency services sector may face. Although this course will be developed and delivered with a national scope, it will emphasize the importance of the local emergency services sector.

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
